THE GUARDIAN

ADMINISTRATION

Fairfax R-III is a good small school with it's eyes directed toward the future. Our future is made up of students K-12. As we graduate each class and they pick up a significant yearly number to represent their class, we hope they had the best opportunity to prepare for the future that this district could provide. It is my hope that this year's senior class has taken advantage of the curriculum opportunities at Fairfax R-III. It would be my dream to see each senior use their foundation years at school to launch into their futures with knowledge to choose their training or vocations and succeed in either. It is our goal at Fairfax School District to help each graduate begin their future with a better background to meet the challenges of their world. School serves a vital role in a young person's life. Young lives that grow into the leadership of our own communities, states and country. As superintendent of Fairfax R-III. I am proud to be part of a school that accepts its responsibilities and challenges its problems. Our students are the benefactors in such a working relationship. I wish our graduating seniors of 1986 the best of luck in the future. Your future does not belong to the weak hearted but to those who set goals and develop plans toward achievement of these goals. I hope you look back at your past to draw strength for the future.

Best Wishes Class of 1986

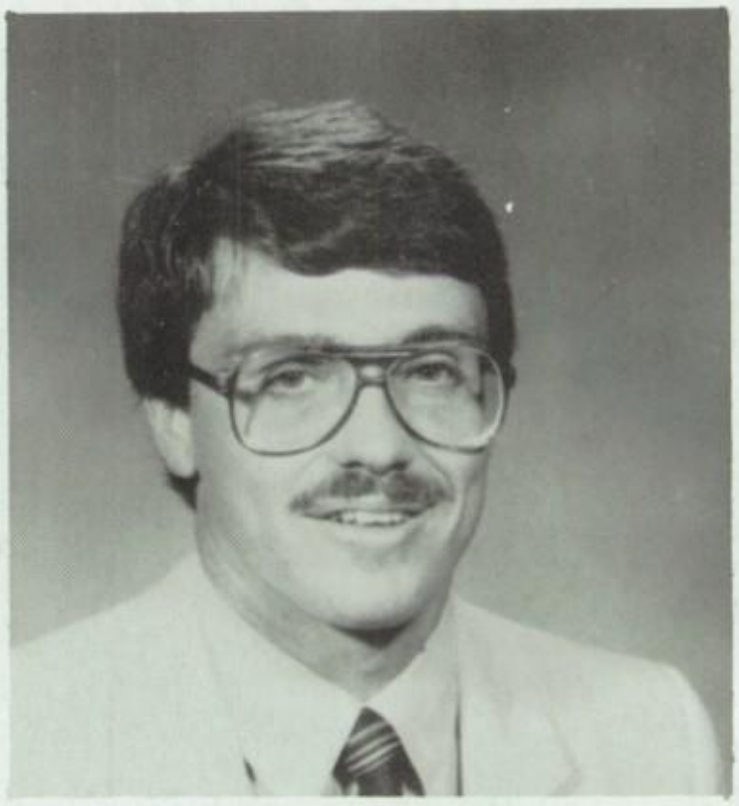
On behalf of the Fairfax Elementary School, I would like to wish the Seniors of 1986 only the best and much success upon graduation. There will be many challenges that await you and hopefully you will make the decisions that will benefit your future. Your youth is something that disappears very rapidly, so do your best to enjoy life to its fullest, but also use the knowledge that you have gained through your education to make wise and responsible decisions. Again, best of luck Seniors.

Martin Sweatman
Elem. Principal



Being a senior is a very exciting and confusing time in one's life. In one sense you are the old, experienced kid on the block whose moves are monitored, and very often copied, by the underclassman. In another sense you are about to embark into a world which offers many opportunities, but also throws many hardships and challenges along the way. It is my wish that you, the graduating class of 1986, have acquired the sufficient skills you need for success after graduation. I will always hold special memories of your high school years and I thank many of you for allowing me to be a part of it. Good luck in all your endeavors.

CONCERT SEASON

The FHS musicians enjoyed a progressive and busy concert season this year. After concentrating for several seasons on rhythem and sightreading, the band moved into the realm of "finese" concentrating on the finer aspects of musical performance. The pep band kept the crowds entertained by performing at all home BB games. Choir expanded its repertoire into more avanced areas of music and performance due to stabilizing numbers and longevity of members. The Jr. High gained experience this year with 22 of its members participating in the 1st Annual Fairfax Jr. High Music Contest, with results of 7-I's, 11-II, and 2-III's

PROPHECY

It is the year 1996 Mr. Holtz and Mrs. Parker are in the Science room playing on the computers. Mrs. Parker asks Mr. Holtz if he has heard what happened to the Class of 1986. He says no, but he is sure if he asks his brand new "perfect" computer designed by Donovan Freemyer, he will be able to find any and all information about the Class of 1986. He proceeds to type in the names of the Class of 1986 and here is what he found:

Rick Burke and Dayne Sutter have started their own law firm because they know how much lawyers get paid.
Michele Burns has graduated from Kirksville as a nurse and is employed as head dietician at the Fairfax Community Hospital.
Michelle Cofer and Kerri Smith are still working under Mr. Fisher as Executive Principal Aids.
Mike Creed is now playing his saxophone for Huey Lewis and the Power Tower Horns.
Julie Dearmont is living in a five story house in Colorado and is now trying to buy the chain of Grand Prix.
Donovan Freemyer is a retired millionaire and owns his own fleet of green pintos.
Bob Graves is still looking for a way to pay off his MIP's.
Ann Hawkins is married to Jim and has her own t.v. show called "Annie's Story Time". Is this anything like Bill's Story Time?
Jeff Jobes has traded in all his Chevys for Fords because he needs a change of pace.
Kelley Lewis is using her experience to open her own fencing business. She's not putting them up, she's tearing them down.
Marty Liles is married to Karen but unfortunately is still working for H.A.
Charla Litherbury is the proud owner of Buhn's Beauty Salon.
Chris Rosenbohm is head football coach at Fairfax and is hoping for a winning season.
Louis Shaw is still trying to get his car licensed so he will have something to drive.
Angie Smith is married to Troy and they now have their own feed delivery service.
John Smith was still found over at Vo-Tech learning how to fix his Mustang.
Ross Swinehart is married to Sandi and has taken over for Ross Valory as the bass player for Journey.
Tammy Wake has come back to FHS to reclaim her old seat on the bench as Bill Elmore's Assistant.
Beth Walker is now married to Butch and is the live in maid at the Graham Motel. She still likes to go camping on weekends to Big Lake with Dawn.

Mr. Holtz and Mrs. Parker are pleased the Class of 1986 have turned out well. They also have to send a thank you card to Donovan Freemyer to thank him for designing the computer.
